

Medication Policy and Management Procedure St Barnabas CE First and Middle School

Date of Approval: **Sept 2023**

Review Date: Sept 2025

St Barnabas F&M Medication Policy

Diocese of Worcester Multi Academy Trust (DoWMAT)

Medication Policy and Management Procedure

This policy should be read in conjunction with the Academy's Health and Safety Policy.

The Disability Equality Policy and the Inclusion Policy and the Educational Visit Policy ensure that all children have access to the full curriculum, and to have their personal, learning and developmental needs met.

This medication policy has been updated following the Department for Education Guidance Supporting Pupils at Academy with Medical Conditions September 2014. St Barnabas CE First and Middle School will adopt the templates issued by the Department for Education Supporting Pupils with Medical Conditions May 2014.

* There is no legal duty which requires Academy staff to administer medicines: this can only be a voluntary role.*

Rationale

Most pupils will have at some time, a medical condition that may affect their participation in Academy activities. For many this will be short-term, perhaps finishing a course of medication.

Other pupils have long term medical conditions that, if not properly managed, could limit their access to education. Such pupils are regarded as having **medical needs** for the purposes of this policy.

Most children with medical needs are able to attend the Academy regularly and with some support from Academy, can take part in most normal Academy activities. However, staff may need to take extra care in supervising some activities to make sure that these pupils, and others, are not put at risk.

There will be some pupils whose access to the curriculum is impaired not so much by the need to take medication but that their condition brings with it a level of dependency on adult support to meet their personal needs. This policy seeks to include these pupils and their needs.

Diocese of Worcester Multi Academy Trust Medication Policy Statement

The DoWMAT support the view that all children should have the maximum access to the curriculum. A child's medical condition should be considered against the demands of the curriculum and wherever possible the necessary arrangements put in place to allow maximum access.

Staff who provide support for pupils with medical needs, or who volunteer to administer medication, should receive support from the Academy Head Teacher and the pupil's parent(s)/carer(s), access to information and training, and reassurance about their legal liability. Staff should whenever they feel it necessary consult with their respective professional associations.

Wherever possible any medication required by pupils should be given at home rather than within the school environment, when a pupil is prescribed medication it should be discussed whether doses can be given at times that do not fall within the school day.

No pupil should be given any medication without written parental consent unless in an emergency situation under the direction of a medical professional.

- **Short term medical treatment** – St Barnabas CE First and Middle School will work with parents/carers to support keeping pupils in Academy when they are well enough to attend. When short term medicines such as antibiotics are prescribed, in most cases it should be possible for parents/carers to ask their doctors to arrange antibiotic dose frequencies to enable the medication to be taken outside Academy hours. If this is not possible, then parents must contact the Academy, complete a consent form and give clear details of the medication to be given; this must include the times doses have been given at home. Pupils must be well enough to attend Academy, it is considered that for most pupils requiring antibiotics, during the first 3 days of taking antibiotics they would probably be unwell and should not attend Academy, although this must be subject to discretion for each individual case. (Template B must be completed)
- **Pain killers.** St Barnabas CE First and Middle School will only administer non prescribed pain relief with written consent from the parent detailing clearly why it is required. Non prescribed pain relief will only be administered for a maximum of **3** days. Pain relief prescribed by a Medical Practitioner will be given for the duration of the prescription once written consent has been given. Consent must clearly state the time that medication has been given at home prior to Academy attendance and when any further doses are due. For residential visits a consent form for pain relief is requested in advance. Parents will be contacted by phone prior to medication being given, only in the event of parents/carers not being contactable and the pupil being in distress will pain relief be given without speaking with the parents/carers. (Template B must be completed)
- **Long term medical treatment** - It is important for the child's emotional and academic development at St Barnabas CE First and Middle School should be as fully aware of a child's medical condition. The Academy will draw up, where appropriate and in conjunction with the parent and other relevant health professionals, a written Health Care Plan. (See template A and template G model letter to parents). Where medication is to be administered for the long term needs of the child, eg. Epilepsy, the parents or guardians of the child will need to complete a written agreement form prior to the medication coming onto the Academy premises (Template B and Template G must be completed)

- **Staff must keep records of medication given to pupils.** If medication is given by a staff member, then the member of staff should check 1) pupil's name 2) written instructions from parent/guardian 3) prescribed dose 4) expiry date 5) Check information with a colleague and seek a counter signature before administering. If in any doubt the member of staff should check with the parent (See templates C and D).
- **Pupils should, when they are sufficiently mature, take charge of their medication themselves.** (e.g. Inhalers.) This will, however, require the written approval of their parents (template B); and will be subject to the safety of the medication, should another child take some of the treatment. Academy staff and parents should, wherever possible, encourage pupils to take responsibility for their medical condition as maturity and understanding permits. Pupils should be encouraged to alert staff members if they have taken their inhaler so a record of this can be maintained.
- **If a child refuses medication they should not be forced to take it.** The Academy will inform the parent as soon as is possible, and emergency care should be considered.
- **Where a medication poses a threat to another child it will always be kept under the supervision of a member of staff.**
- **Staff should receive the appropriate training and support to meet the needs of pupils that will fall within their care.** (Template E will be completed for all individual staff training. Registers of group staff training are available from the SENCo Support).
- **The Academy makes provision to meet the health and medical needs of pupils on Academy visits and residential education.** The Academy has an Educational Visits Policy and follows the National Guidance of the Outdoor Education Advisors Panel <http://oeapng.info/downloads/download-info/4-4d-medication/>

Responsibilities

It is important that responsibilities for pupils' safety is clearly defined and that each person involved with pupils medical needs is aware of what is expected of them. Close co-operation between St Barnabas CE First and Middle School, parents, health professionals and other agencies will help provide a suitably supportive environment for pupils with medical needs.

Parents/Guardian Responsibility

- A comprehensive information guide specifically relating to the pupils condition and medication must be recorded in an individual care plan as supplied by the Academy or Medical Practitioner.
- Parents/carers should discuss with medical professionals whether dosages can be prescribed in such a way that they can be given outside of school times.
- Only reasonable quantities of medication should be supplied to the Academy (e.g. maximum of a term at any one time)
- Where pupils travel on Academy transport with an escort, Parents/Guardian should ensure that the escort has a copy of written instructions relating to medication of the individual.
- Notification of changes in prescription drug issued by GP must be directly given to Academy by Parent/Guardian.
- Parent/Guardian to collect and restock medication from Academy at the end and start of every term in a secure labelled container as originally dispensed.
- Replacement of medication in sufficient time. E.g. inhalers, adrenalin pens.

Academy Responsibility

- Medication where not self-managed, will be kept in a known safe secure place (not necessarily locked away) and some drugs may require refrigeration.
- Where emergency medication is prescribed this must remain with or in close proximity the pupil at all times and be easily accessible e.g. Epi-pen, Asthma inhalers. Each class has a green "medical" basket which they take with them as they move around the school.
- Clear records of any medication given including times and dosage will be maintained.
- Training needs of staff will be identified then training sourced and arranged.
- Develop, implement and record individual care plan for pupil as required, identifying supporting staff.
- **If a medical emergency develops activate the relevant procedures and call 999**

G.P/Consultant/Medical Professional Responsibility

G.P's, Consultants and other medical professionals are responsible for providing an emergency action plan as required for certain ill health conditions and medication administration.

Prescriptive labelled drugs must contain:

- Pupils name
- Name of medication
- Dosage
- Frequency of administration
- Date of dispensing
- Storage requirements (if important) i.e., refrigeration
- Expiry Date

Academy Medication Management Procedure

Non-prescription medicines

St Barnabas CE First and Middle School will only give non-prescription medicines to pupils in line with the policy statement, where consent is clearly documented and valid reasons are given.

For some conditions, such as Eczema, doctors may have recommended soothing ointments in the event of a 'flare up' of the child's condition.

Procedures for managing prescription medicines during the Academy day

Safe Storage of Medicines

Where medication requires refrigeration facilities will be provided by the Academy, the fridge used is in the staff room, a separate area **e.g. one of the door shelves** of the fridge is kept clear for medicines.

Where refrigeration isn't required medicine is stored in the Main office store in a Medical Box within a filing cabinet with each child's medicine clearly marked with the child's name and the dose to be taken:

- Tablets/sachets are kept in a named envelope/polythene bag in the medical box.
- Medicine, with a syringe/spoon of the correct size for the dose, is kept in a sealed polythene bag.

Staff record that the dose has been taken completing template C.

Staff inform parents that the medicine needs to be replenished or replaced, if parents forget to do this.

Administering Medicine to Pupil's

Emergency Medication for Anaphylactic Shock

Anaphylaxis can be triggered by allergens such as insect stings, and certain drugs, but the most frequent cause is food. Children known to have an allergy to insect stings or food, will have an Individual Health Plan (template A) and an Emergency Action Plan which must be completed by the prescribing Consultant/Doctor.

Before a child with Anaphylaxis is admitted to Academy, staff will be trained to deliver medication via an 'Epi Pen' in an emergency. The Head, Deputy and First Aider are first line staff to administer the injection via a pen. In the event of an emergency, other trained staff will give the child the injection. Academy staff will always ring 999 in these emergency situations.

Sometimes the academy will be instructed to give a dose of anti-histamine medicine first, (such as 'Piriton') that is kept in Academy as detailed in the Individual Care Plan/Emergency Action Plan. Such instructions given to the Academy **must** include action to be taken if this dose does not reduce the symptoms within a very short time. Parents are informed by phone at once if the anti-histamine medicine has been administered. If the symptoms do not reduce, an ambulance is called and an injection given.

Asthma Inhalers

Most inhalers are kept with the pupil either on person for older pupils or in the classroom for younger children. When children go out of Academy for sports or on visits, staff must ensure that inhalers are taken with them.

When a child needs to take their inhaler, for example, before a PE lesson, at break time or lunchtime, they should inform the class teacher that they are taking their inhaler.

Children are trained how to access their inhaler and the importance of adult supervision. Children are supervised when they take their inhaler. If they have any difficulty, the First Aider is called to assist.

Children needing a nebuliser are supported by the First Aider.

Emergency Inhalers

The academy has an “emergency inhaler” for circumstances whereby a pupil with known asthma requires assistance and their own inhaler is not available. See DfE guidance.

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/416468/emergency_inhalers_in_schools.pdf

Where parents/carers have given consent for their own inhalers to be used, they will be requested to consent that in the absence of their own inhaler being available the “emergency inhaler” can be used.

The academy has emergency spacer devices available for the assistance of administering medication in emergency situations, these are once use items in these circumstances.

Following use of the emergency inhaler, the inhaler will be thoroughly cleaned.

Note:

If there is an emergency situation whereby consent has not been received either for a pupil with diagnosed asthma or for a pupil with no previous history or knowledge of asthma and symptoms suggest an asthma attack is occurring, the emergency services will be called. If advised to do so by the emergency services, the emergency inhaler will be used even where consent has not been received and full details of the advice given and dosage administered will be recorded.

Injections

Academy staff in general will not give a child an injection. Children with Diabetes or with other medical conditions needing an injection are supported by the First Aider to do so. If the child is unable to do so and it is deemed that adult support is required the care plan should clearly detail this and staff will have been given appropriate training prior to assisting. If a pupil refuses to give themselves an injection the parents are contacted. In the event of an emergency, an ambulance will be called and staff will follow any instructions given. All medication administered will be fully recorded using template C.

Liquid Medicine

Liquid medicines are generally taken at lunchtimes, either before or after their meal, according to their doctor's instructions; but may also be taken at other times during the day.

The dose is measured out with the measuring syringe/spoon provided by the parent, and wherever possible, the syringe/spoon is then handed to the child for them to take the dose. The syringe/spoon is then wiped clean with a tissue and replaced with the medicine in the plastic bag. All medication administered will be fully recorded using template C & D.

Tablets

Children needing tablets generally take them at lunchtime, either before or after their meal, according to their doctor's instructions; but may also be taken at other times during the day.

Children go to the office and ask admin staff for their tablets. They are given the tablet to take, all medication administered will be fully recorded using template C & D. The child is given water to drink if required. Academy staff make every effort to remind children to take their medicine at the correct time.

Tablets must not be crushed or hidden in food.

Procedure for managing prescription medicines on residential education visits

- Risk assessments are completed before each Academy trip and outing. Risks for children with known medical conditions are considered, as well as any potential risk to others.
- Parents complete medical forms at least three weeks before the visit. St Barnabas CE First and Middle School enters into a dialogue with parents about the kind of medication, the circumstances in which it can be administered, the precise time the dose is given, and the exact dose.
- In advance of a residential trip staff make contact (either in writing or in person) with the parents of children with medical conditions. They ensure that they are as fully briefed as possible, that adequate quantities of medication are available, that the child's condition is stable; and which emergency details are required should the child need to have additional support. This is recorded for the Group Leader.
- Medicine will be given to the child to take by the Group Leader, supported by another member of staff. The child will be supported to take medicine, or to inject themselves. Academy staff will record that medicine has been given using the form detailed in template C.
- Group Leaders will ensure that staff keep the inhalers for children allocated to them 'when out in the field', or, for older, more responsible children, that they keep them with them during the day.
- Medicine is returned to the parent the day the child returns to Academy after the residential visit.

Emergency Procedures - In the event that an ambulance needs to be called

Following template F of the Department for Education

Request an ambulance - dial 999, ask for an ambulance and be ready with the information below.

Speak clearly and slowly and be ready to repeat information if asked.

1. your telephone number
2. your name
3. your location as follows –
St Barnabas CE First and Middle School and address details including post code
4. state what the postcode is – please note that postcodes for satellite navigation systems may differ from the postal code
5. provide the exact location of the patient within the Academy setting
6. provide the name of the child and a brief description of their symptoms
7. inform Ambulance Control of the best entrance to use and state that the crew will be met and taken to the patient
8. put a completed copy of this form by the phone

Following the above

- * Endeavour to make contact with the parent.
- * Accompany the child in the ambulance.
- * Take a copy of all medical details and their medication with them.
- * Remain with the child until the parent arrives.

Staff should not take pupils to hospital in their own car.

Where an Ambulance needs to be called in Academy, then there are several roles which staff take on. The responsibility for these roles is fluid, since at any one time that particular member of staff may not be available.

These are the general procedures to be followed, in more detail, with a suggested member of staff who will carry out that procedure.

- | | |
|--|--|
| ○ The decision that the child needs emergency medical care | ○ First Aider |
| ○ Directing Admin staff to call an ambulance and call the parents on another line. | ○ Head or most senior manager or Admin Officer |
| ○ Passing on information to the Ambulance staff /Paramedics | ○ First Aider |
| ○ Going in the ambulance with the child in the absence of the parents | ○ Head / First Aider / Senior member of staff |
| ○ Transferring the member of staff from the Hospital back to Academy when the parents have arrived at the Hospital | ○ Available member of staff: Admin Officer, Learning Mentor, Head, Deputy. |

Advice on Medical Conditions

The Community Paediatrician or Nurse on request will give advice regarding medical conditions to the Academy. Parents or guardians of children suffering from these conditions seeking general information should be advised to seek advice from their G.P., the school nurse or from the bodies detailed below. The following bodies can also supply leaflets regarding the conditions listed.

Templates

**Supporting pupils with medical
conditions**

May 2014

Introduction

In response to requests from stakeholders during discussions about the development of the statutory guidance for supporting pupils with medical conditions, we have prepared the following templates. They are provided as an aid to Academies and their use is entirely voluntary. Academies are free to adapt them as they wish to meet local needs, to design their own templates or to use templates from another source.

Template A: individual healthcare plan

| | |
|--------------------------------|--|
| Name of school/setting | St Barnabas CE First and Middle School |
| Child's name | |
| Group/class/form | |
| Date of birth | |
| Child's address | |
| Medical diagnosis or condition | |
| Date | |
| Review date | |

Family Contact Information

| | |
|-----------------------|--|
| Name | |
| Phone no. (work) | |
| (home) | |
| (mobile) | |
| Name | |
| Relationship to child | |
| Phone no. (work) | |
| (home) | |
| (mobile) | |

Clinic/Hospital Contact

| | |
|-----------|--|
| Name | |
| Phone no. | |

G.P.

| | |
|-----------|--|
| Name | |
| Phone no. | |

Who is responsible for providing support in school, if required

| |
|--|
| |
|--|

Describe medical needs and give details of child's symptoms, triggers, signs, treatments, facilities, equipment or devices, environmental issues etc

Name of medication, dose, method of administration, when to be taken, side effects, contra-indications, administered by/self-administered with/without supervision

Daily care requirements

Specific support for the pupil's educational, social and emotional needs

Arrangements for school visits/trips etc

Other information

Describe what constitutes an emergency, and the action to take if this occurs

Who is responsible in an emergency (*state if different for off-site activities*)

Staff training needed/undertaken – who, what, when

Template B: parental agreement for setting to administer medicine

The school will not give your child medicine unless you complete and sign this form, and the school has a policy that the staff can administer medicine.

| | |
|------------------------------------|--|
| Date for review to be initiated by | |
| Name of school/setting | St Barnabas CE First and Middle School |
| Name of child | |
| Date of birth | |
| Group/class/form | |
| Medical condition or illness | |

Medicine

| | |
|---|--|
| Name/type of medicine <i>(as described on the container)</i> | |
| Expiry date | |
| Dosage and method | |
| Timing | |
| Special precautions/other instructions | |
| Are there any side effects that the school/setting needs to know about? | |
| Self-administration – y/n | |
| Procedures to take in an emergency | |

NB: Medicines must be in the original container as dispensed by the pharmacy

Contact Details

| | |
|---|--------------------------|
| Name | |
| Daytime telephone no. | |
| Relationship to child | |
| Address | |
| I understand that I must deliver the medicine personally to | [agreed member of staff] |

The above information is, to the best of my knowledge, accurate at the time of writing and I give consent to school/setting staff administering medicine in accordance with the school/setting policy. I will inform the school/setting immediately, in writing, if there is any change in dosage or frequency of the medication or if the medicine is stopped.

Signature(s): _____ Date: _____

Template C: record of medicine administered to an individual child

| | |
|----------------------------------|--|
| Name of Academy/setting | |
| Name of child | |
| Date medicine provided by parent | |

Template F: contacting emergency services

Request an ambulance - dial 999, ask for an ambulance and be ready with the information below.

Speak clearly and slowly and be ready to repeat information if asked.

1. your telephone number **01905 840366**
2. your name
3. your location as follows **St Barnabas CE First and Middle School**
 Stonebow Road
 Drakes Broughton
 WR10 2AW
4. state what the postcode is – please note that postcodes for satellite navigation systems may differ from the postal code: **WR10 2AW**
5. provide the exact location of the patient within the school setting
6. provide the name of the child and a brief description of their symptoms
7. inform Ambulance Control of the best entrance to use and state that the crew will be met and taken to the patient
8. put a completed copy of this form by the phone

Template G: model letter inviting parents to contribute to individual healthcare plan development

{DATE}

Dear {Insert Name},

DEVELOPING AN INDIVIDUAL HEALTHCARE PLAN FOR YOUR CHILD

Thank you for informing us of your child's medical condition. I enclose a copy of the school's policy for supporting pupils at school with medical conditions for your information.

A central requirement of the policy is for an individual healthcare plan to be prepared, setting out what support each pupil needs and how this will be provided. Individual healthcare plans are developed in partnership between the school, parents, pupils, and the relevant healthcare professional who can advise on your child's case. The aim is to ensure that we know how to support your child effectively and to provide clarity about what needs to be done, when and by whom. Although individual healthcare plans are likely to be helpful in the majority of cases, it is possible that not all children will require one. We will need to make judgements about how your child's medical condition impacts on their ability to participate fully in school life, and the level of detail within plans will depend on the complexity of their condition and the degree of support needed.

Please complete the attached individual healthcare plan template and return it, together with any relevant evidence, professional contact details and medication details.

Yours sincerely
